2000 Piper PA-46-350P – N4167A

Experience ultimate performance and luxury with this 2000 Piper Malibu Mirage, a legendary combination of speed, comfort, and efficiency in a pressurized, owner-flown aircraft. Powered by a turbocharged 350-hp Lycoming engine, the Mirage delivers true cross-country performance with cruise speeds over 200 knots, impressive range, and the ability to climb smoothly above the weather with a service ceiling of 25,000 feet. Its spacious, quiet, climate-controlled cabin offers seating for up to six, making long trips relaxed and productive, while Piper's proven PA-46 design is known for solid handling and reliability. Ideal for pilots seeking turbine-like capability without turbine costs, this Malibu Mirage is a premier choice for serious personal or business travel.
